

ALIGNED WITH QATAR NATIONAL VISION 2030

FUTUR ONE THE NEXT STRATEGIC RESOURCE.

Qatar built one of the world's most successful sovereign industries on the strategic resource of the 20th century. The next one is intelligence.

FUTUR ONE is the proposed sovereign vehicle to capture, deploy and govern that resource — founded and operated by Hearst Qatar, structured for majority participation by the Qatar Investment Authority.

THE STRATEGIC THESIS

**Compute is the new oil and gas.
Sovereign control is the new
advantage.**
The window is now.

Within the next decade, sovereign AI compute capacity will determine which states sit at the table of global economic and security decisions.

FUTUR ONE proposes the architecture to put Qatar at that table — built domestically, governed sovereignly, operated to industrial standard.
